Brief Summary

I am a passionate aspiring Data Scientist with knowledge of Machine Learning, Deep Learning, and Data Analytics. I work well with Python and libraries like NumPy, Pandas, Matplotlib, and Seaborn to analyze data and create projects like weather prediction and data visualization. I am also skilled in SQL, Excel, and Power BI. I enjoy solving real-world problems using data and learning new ways to improve my skills.

Education

Savitribai Phule Pune University Aug 2023 – June 2027

B.Sc. Data Science

- Gaining expertise in machine learning, data analysis, and visualization techniques.
- Hands-on experience in Python, SQL, and data preprocessing.
- Developing predictive models and conducting hypothesis testing for real-world datasets.

Projects

- **Healthcare Data Analysis Project** - Analyzed healthcare datasets to extract useful insights. Used Python libraries such as Pandas (data cleaning and manipulation), Seaborn/Matplotlib (visualization), and NumPy (mathematical computations).
- **Weather Prediction Project** - Implemented a simple machine learning model to predict weather conditions. Used Python for preprocessing data, training models, and visualizing results.

Skills

- **Programming & Libraries:** Python (NumPy, Pandas, Seaborn, Matplotlib)
- **Machine Learning & Deep Learning:** Model building and evaluation
- **Databases:** SQL
- **Languages :** Marathi , English , Hindi , German

Certifications

- **Meri Mati Mera Desh** – World Guinness Book Record Participation
- **Rubicon Foundation** – Employability Skills Training
